**At RD Air Conditioning and Heating
we offer solid advice and solutions you can rely upon.**

Do you know when it's time to replace your ac and heating system? With the unpredictable weather going without a properly functioning ac system is not an option. Based on the age, efficiency, and condition of your ac system will make the difference of having to replace or repair. The benefits of hiring an ac repair professional is the comfort of knowing you will receive fast and efficient service. Our licensed ac technicians will quickly diagnose issues and provide fast solutions that work, maintaining, repairing residential air conditioning equipment. We also perform installations for new home construction and remodels in Bexar County. We can even modernize your current HVAC system.

We provide comprehensive estimates free of charge, with service contract. One of our expert technicians will come to your home to survey your existing HVAC equipment and ask you a few questions in order to determine your heating requirements. The technician will also examine your ductwork for leaks and any other problems that might affect the quality of your heating. After evaluating your equipment and gathering the necessary information, we will provide our professional recommendation for the heating system that will meet your specific needs while offering the best value in terms of quality, efficiency and cost.
